

CoopLog

- Direct access to all products of the wholesale market**
- Direct feedback at the wholesale market on pickup or delivery**
- Direct pickup and labelling of goods by the associates**
- Direct information from the associates about his product**

**CoopLog makes e-commerce
for wholesale markets and
all their products easy**

What are the benefits of CoopLog?

For the gardener

- Offer products online
- No changes in the supply chain needed
- Receive orders outside the wholesale market-opening times

For the wholesale market

- Online Shop with the all products of the associates
- Order processing outside the opening times
- Automated order processing

For the customer / retailers

- Large and current product overview
- Check the status of an order
- Pick up pre-picked goods at one location

For the end customer / consumer

- No anonymous product, due to direct access to producers and information
